  - 1.2.3. The Regional Rallies will be points events for the Southwest Rallycup Series. As such, decals promoting this regional series must be displayed on all competition vehicles if an entered team is competing for points in this regional series.
    - 1.2.3. a. Southwest RallyCup Series Event Contingency Prize and Out of Area Tow Funds

The Southwest Rally Cup Series will provide a prize and tow fund for each of the Middle Cog regional events. A \$400 cash award will be available for each event and will be distributed to the first and second place teams in each Rally America class. Third place finishers will be recognized.

For teams entering from California, Nevada or Arizona, a \$50 tow fund will be available to the first three teams entering the event based on paid entries received by Rally America. The tow fund money will be distributed at the Event Registration.

Southwest RallyCup Series funds are contingent on competitors displaying SWRC decals on each side of their vehicle prior to and during both events per the Rally America rule Article 3.1 Car Identification (A.2). Questions regarding anything related to the SWRC should be directed to Denise McMahon, Series Director, at 562-547-4892 or [marymountdenise@aol.com](mailto:marymountdenise@aol.com).
- 1.3. Visa numbers are not applicable to any of these events.
- 1.4. The official Rally Headquarters will be upstairs in the Howelsen Hill Lodge (Olympian Hall) located at the base of the Howelsen Hill Ski Area in Steamboat Springs, Colorado, through the close of Registration on Friday, September 18<sup>th</sup>. Beginning at 7:00AM on Saturday, September 19<sup>th</sup>, the Rally Headquarters will move to the Exhibit Hall at the Routt County Fairgrounds in Hayden, Colorado and will remain at this location during all hours of competition until the end of the event. The Rally Headquarters will move back to the Howelsen Hill Lodge (Olympian Hall) location following the end of competition on Sunday, September 20<sup>th</sup> and will remain at this location until the completion of the Awards Party. (See APPENDIX 4 for local maps with event site locations highlighted.)

It is recommended that all teams (driver and co-driver) remain in their driving suits during this period and all teams are recommended to assure that at least one credentialed member of each team (driver, co-driver, service crew member, etc.) is present and nearby their competing vehicle in order to discuss our sport and show their vehicle to spectators and/or media personnel who may be present.

During this period, servicing may occur anywhere in the Steamboat Springs area except at the Parc Ferme location. Teams are encouraged to use the Steamboat Service Area and/or the carwash located approximately 1.4 miles north of the courthouse on Highway 40 (Lincoln Avenue). This is the same location where we provided free car washes to all competitors in 2006. Car washes will NOT be free in 2009...a supply of quarters will be required.
  - 1.7.3. There will be no penalty for early arrival at the Parc Ferme but there will be a penalty assigned for late arrival or for failure to appear as described in Section 1.7. Scorecards will be issued at the MTC-IN at the Steamboat Springs Rodeo Grounds Service Area.

  - 1.7.6. All teams (driver and co-driver) are encouraged to remain in their driving suits during both the Parc Ferme and Parc Expose and all teams are encouraged to assure that at least one credentialed member of each team (driver, co-driver, service crew member, etc.) is present and

nearby their competing vehicle during these events in order to discuss our sport and show their vehicle to spectators and/or media personnel who may be present.

  - 1.8.1. The Media Room will be staffed by Chad James, the Volunteer Coordinator for the **Miller Coors RALLY COLORADO 2009 presented by Fireside Catering.**
  - 1.8.2. Applications for media credentials should be downloaded from the Rally America website and sent to Rally America at their Minneapolis, MN office for processing.
  - 1.8.3. Media personnel who show up at the Press Registration site without the proper Rally America media credentials *COULD* be denied any press access to all elements of this event.
- 1.9. All stage roads are owned by Routt County with the exception of Special Stages #6 and #7 (see 1.9.2 below) and are designated as "minimum maintenance" roads by the Routt County Road and Bridge Department. Most of these roads are only one lane wide ranging from 8'-10' average width. The remaining roads approach a more typical surface width of 12'-14'. Most of these roads have a clay/loam surface with minimal provision for drainage, little or no gravel in place and few if any super elevations in the corners. When wet, roads become very slippery and some are described by the county as "impassable when wet". Precipitation within one week before the event followed by local traffic on these roads will produce very deep ruts that will be difficult to traverse if still wet or very hard if dried out. There are a few miles of loose rock but this is not common. The organizers will attempt to identify the locations of exposed bedrock that could cause undercarriage damage in the routebooks but provide no guarantee that all of these locations will be so sited.
  - 1.9.1. The Routt County Board of County Commissioners signed a resolution on August 25, 2009 @ 9:50AM allowing our use of all of their roads for this event.
  - 1.9.2. Special Stages #6 and #7 will be run on Saturday only at the Hayden Speedway facility which is owned by the Town of Hayden and leased to the Western Colorado Racing Association. A letter of understanding has been signed by all necessary parties allowing our use of this facility.
  - 1.9.3. Signed letters of agreement regarding our road closures will be secured by the two property owners who reside on property adjoining two stage roads: Cross Mountain Ranch on Routt County Road 29 and Dick Williams on Routt CR 37B, both roads used as portions of Stages #13 and #14.
  - 1.9.4. In the event of significant precipitation, the organizers reserve the right to cancel and/or re-schedule stages that could cause significant delays in the overall operation of the event.
  - 1.9.5. GPS coordinates and elevations above sea level for all control locations and for the highest elevation point on each stage will be available on the event website no later than two weeks prior to the event.
