Competitor Bulletin # 2 – Parc Expose Entry and Service

All National cars plus numbers 777, 44 and 132 are to check in to the Lewiston Parc Expose between 12:30 and 1:00 pm. All others are to check in between 1:00 and 1:30 pm.

All National cars plus numbers 777, 44 and 132 are to check in to the Atlanta Parc Expose between 8:30 and 9:00 am. All others are to check in between 9:00 and 9:30 am.

As a reminder, the servicing on Friday will take place in the town of Lewiston and on Saturday at the high school in Atlanta. Space is limited at both areas so your cooperation is vital to the success of the event in these areas

The loading of National crews into the Service Areas begins at 9:00 am on Friday and 8:00 am on Saturday and for Regional teams at 11:00 am and 9:00 am respectively. Attached are updated approximate maps of the service areas with space assignments indicated. Loading of service crews will be, more or less, by service space number with the lowest numbers loading first.

National teams should enter the Lewiston Service area via Olsen Road (one block west of Kneeland Street). Regional Teams should enter the Lewiston service area via Lake Street (two blocks south of Co Rd 612). Please be prompt to ease the load in process for yourself and your fellow competitors.

ALL SERVICING IS TO BE PERFORMED WITHIN YOUR ASSIGNED SPACE -- This includes vehicles, tools, tents, visitors, banners, promotional displays, and etc. Signs marking the space boundaries are not to be moved except to enter or exit a space. Do not block fire lanes, sidewalks or ORV trails.

Only registered service vehicles will be allowed in the service areas. Please park extra vehicles in public parking areas and unneeded trailers in designated trailer drop off areas. Parking in the service area is limited to your assigned space only.

Vehicle movement within the service areas should be limited to entering and exiting only. The speed limit in the service area is a fast walking pace and will be strictly enforced. Please note that Kneeland will be one way northbound between Lake and Hanson due to the narrow aisle.

Competitor Bulletin # 2

Unload rally cars from trailers outside the service areas. There are many convenient spots throughout Lewiston. In Atlanta you may use the large plowed lot across Co Rd 489 from the High School.

There is no overnight parking in the Service areas. If needed, the parking should be in the trailer parking areas noted above.

Because the movement of service vehicles can cause traffic issues for competitors, service rigs cannot be removed without the approval of the service chief. As long as competitors are not in service, this approval will be readily given.

As previously noted, the VP Fuels truck is available: Thursday, 1 to 5 PM at the plowed parking lot across from the Atlanta High School. **This is the only time you can pick up VP Fuel at the rally. The truck leaves Thursday evening.**

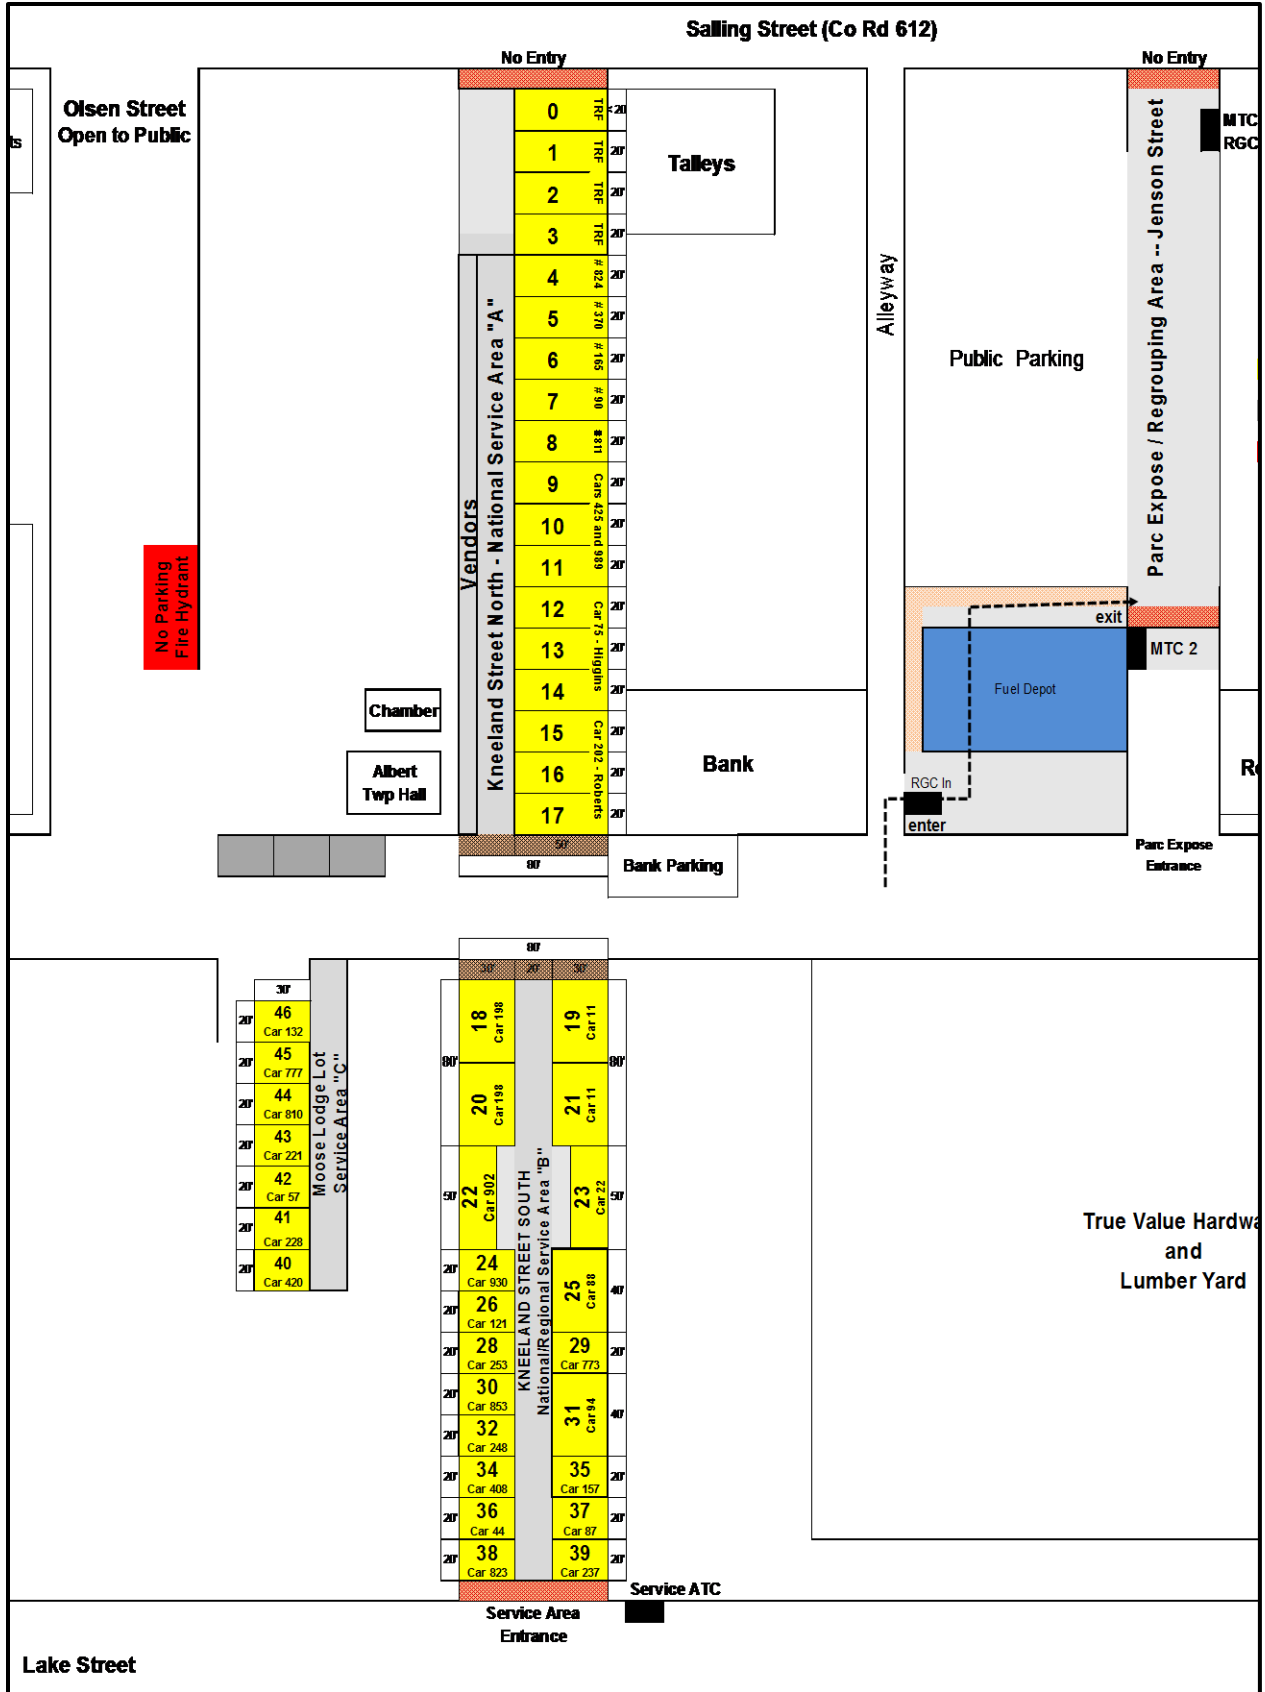

We are providing catch pans and waste fuel cans for your use in the refueling area. Empty the pans into a waste fuel can after fueling so the next car can use the catch pan.
