

Organizer Bulletin #1
2017 Nemadji Trail Rally
November 22, 2017

From: Susi Little, Chairman
To: All Competitors
Subject: Steward change, MTC, Service area,
Parking and Trailers

1.1 Steward Change

Steve Gingras will be the steward until the completion of the Driver's Meeting. Upon conclusion of that meeting, the steward for the event will be J.B. Niday.

1.2 MTC location

In an effort to improve safety and traffic flow, we have moved the location of MTC again this year. It is now on the frontage road heading towards the service area from Cty Rd 47. When approaching after SS2 and SS4, please pull alongside the road on Hwy 23 to wait (immediately before the left onto Cty Rd 47), so we don't block traffic.

1.3 Service Area

The service area will remain the same as last year. Spots will not be marked or pre-determined, so please be considerate when selecting your service location upon arrival in the morning and park next to another competitor in order to maximize space for all. Tech will come to you, so please have everything ready for them, including the tech form and log book. All servicing *must* be done in the designated service area. Loading and unloading is allowed in the service area and the designated trailer parking area. There is to be no loading/unloading or parking in the no parking zones! Please see the attached updated Duquette area map. ***Failure to comply will result in disqualification!

1.4 Parking and Trailers

Parking on the frontage road in front of the Tavern or along County Road 47 is not allowed. In order to ensure adequate worker parking, we request that trailers only be parked in the trailer parking area or service area. Please see the attached map for an updated overview of the Duquette area, including updated parking and trailer drop locations.

Duquette Area Map
